Deposit Administration 2 (DA2) fund factsheet

Quarter One 2025

• Fund description

Deposit Administration 2 (DA2) is a unitised with-profits fund with a 3% guaranteed minimum growth rate to retirement. DA2 will invest in a mix of UK equities, bonds and gilts. The current target level of equity exposure is 15% - 25% of the overall investment.

A terminal bonus or market value reduction (MVR) may be applied in certain circumstances when the benefit becomes payable. The terminal bonus and MVR rates are not guaranteed, though an MVR will not be applied at maturity. The current rates are shown at the end of this factsheet.

Details of how we manage our with-profits business can be found in the Annual Report to With Profits Policyholders.

[Annual Report to With-Profits Policyholders](#)

Fund information	
Fund provider	Aegon
Fund launch date	September 1998
Fund closed to new business	October 2002
Aegon fund size (£ million)	11.8
Fund type	Pension
Total charge*	1.01%

*This includes a standard 1% product charge, a fixed management fee and expenses that vary with the day-to-day costs of running the fund. Expenses can include costs paid by Aegon to third parties. You may pay a different product charge.

Asset Allocations as at 28/02/25:

Asset	Weight
Gilts	28.0%
Other Fixed Interest	52.0%
UK Equity	10.1%
Overseas Equity	6.8%
Property	3.1%
Total	100.0%

Fund performance

3 months	1 yr	3 yrs	5 yrs	10 yrs
0.7%	5.6%	-0.7%	-0.6%	1.4%

Feb 24 to Feb 25	Feb 23 to Feb 24	Feb 22 to Feb 23	Feb 21 to Feb 22	Feb 20 to Feb 21
5.6%	2.2%	-9.2%	-1.0%	-0.1%

Source: Aegon. Figures in £s on a bid-to-bid basis, net of charges, with gross income reinvested to 28 February 2025. Periods of greater than one year show annualised compound returns.

Past performance is no guide to future performance. The value of this investment can fall as well as rise for a number of reasons, for example market and currency movements. You may get back less than the amount originally invested if you surrender the policy prior to the selected maturity date.

These figures represent the investment return on DA2 fund net of product charge, but not incorporating charges for guarantees and the distribution from the inherited estate (see “Enhancements to asset shares” for further information). Actual with-profits payouts also incorporate the effects of smoothing of investment returns and will therefore not necessarily reflect these returns.

Reversionary bonus rates applied

Year	Rate applied (%)
1998	2.5
1999	2.5
2000 (01.01.00 – 31.03.00)	1.75
2000 (01.04.00 – 31.03.01)	1.75
2001 (01.04.01 – 31.03.02)	1.0

2010 (01.04.10 – 31.03.11)	Nil
2011 (01.04.11 – 31.03.12)	0.5
2012 (01.04.12 – onwards)	Nil

Future benefits from contributions invested are not guaranteed and depend on the bonuses declared by Aegon.

Guarantee charges and estate distributions

Amounts payable to policyholders are guided by the calculation of asset shares. This reflects the accumulation of premiums paid less any withdrawals, contract charges and expenses at the rate of investment return on the underlying with-profits fund assets.

In addition, the investment return is increased by any distributions made from the estate and decreased by charges for guarantees payable to the estate. This includes any additional enhancement to investment returns that may be added, from the estate, at the point of claim. The estate represents the excess of assets within the with-profits fund over and above the amount required to meet customer benefits. Aegon has no entitlement to any of the estate and we aim to distribute the estate equitably to with-profits policyholders over time.

The combination of these effects, plus an allowance for smoothing of investment returns, is then reflected in policy payouts through the terminal bonus and MVR rates. The following table illustrates the effect on the annual investment return from the movements to/from the estate (before any smoothing is applied).

It is important to note that the above estate distributions are not guaranteed. It may become necessary to remove some or all of these should the Scottish Equitable with-profits fund (of which this investment fund forms a part) experience adverse conditions.

Source of data: Aegon. Figures on a bid-bid basis, net of charges, with gross income reinvested. The enhancement applied to claims effective 1 January 2025 was 2.5%. The enhancement remains unchanged at 2.5% and is reflected in the terminal bonus scale effective from 1 April 2025.

Calendar year	Investment performance before estate movements	Charge for guarantees (to the estate)	Estate distribution (from the estate)	Investment return after estate movements	Additional enhancement to investment return made at the point of claim (from the estate)

The rates shown are not guaranteed and can be increased or decreased at any time. In normal circumstances we aim to review rates on a quarterly basis. If money is taken out at any time other than on death or selected retirement date the amount may be subject to an MVR, which would reduce your final plan value.
